		partner with the NHSaves efforts and your loan for new businesses.

2020-09-24 14:16:31 UTC	Kerri Sands	Any thoughts from the speakers (or participants) about an overall "formula" for sparking entrepreneurship - is there a perfect storm of space + funding + local champions + economic trends + natural resources that anyone has seen? Or is this an artificial idea given what we've heard today about small steps rather than big perfect packages?
2020-09-24 14:16:58 UTC	Cory Finch	Sarah, in your opinion, where should traffic management fit into the layout of already established businesses? In Jaffrey, I am aware that a well-appreciated business was closed in order to install a rotary for the roadway. Obviously, a roadway is not the same as a septic system, but I am curious as to where it would rank in the aforementioned scenario.
2020-09-24 14:16:58 UTC	Brianna Drohen	Sarah Ashton how did you get the community engaged? We struggle with low-population density and the challenges for interest in economic development that come with low-income areas.
